**ROBOT INDUSTRIES**  
PIONEER OF ROBOTIC APPLICATIONS

Freshly ground coffee brewed to perfection by fully automated coffee machine is like having a barista that performs with sharp 100% consistency 24 hours a day!

CafeRlbot performs tasks by responding to instructions made by kiosk touch screen or a web application (in future).

CafeRlbot performance is monitored in real-time by the App in your smartphone and web application.

# Ice Cream Product Variety

## 01. ICE CREAM FLAVORS

ANY mono or combined flavors and brands of the ice cream can be used to serve your customers based your local preferences and trends. Ice Cream is served in a paper cup.

## 02. ICE CREAM TOPPINGS

You can choose any 3 toppings out of more than 30 available on the market today, depending on local preferences.

### Chocolate

Rich, creamy, and totally indulgent for the discerning palate, chocolate flavour is confidently showing itself as the 2nd favourite after vanilla.

### Strawberry

Everyone wants to feel those summer vibes brimming with flavour of Strawberry Juice & Pulp. That makes strawberry our 3rd most favourite flavour across all the CafeXbots worldwide.

### Strawberry / Vanilla

That rich chewy thick vanilla ice cream that stretches like gelato is an ultimate favourite. Many prefer to mix it with awesomeness of strawberry.

# Coffee product variety

## 03. COFFEE

ALL types of the most popular coffee drinks are available via Franke installed in CafeRibot.
